METcase™ 2007 Aluminium Enclosures Catalogue

METcase™ have published their new 2007 Aluminium Enclosures Catalogue which details their comprehensive range of desktop, portable, wall mounting and 19" enclosures.

This 28 page colour catalogue provides design engineers with an invaluable selection of modern, versatile and cost effective aluminium housings. The ordering information, drawings, material specifications and customising options are all set out in a clear and easy to use format.

For the 2007 catalogue, METcase™ have introduced three all new lines: 'MINIMET' small instrument cases, 'DATAMET' wall mounting enclosures and VERSAMET 19" rack cases. The popular 'UNIMET' and 'UNICASE' series have also been extended with a selection of new models.

METcase™ aluminium enclosures are offered in many different sizes and styles, all of which can be supplied fully customised with all the necessary holes and cut outs, silk-screen printing etc., ready for fitting the electronics. Details of the customising options are also included in the new catalogue.

The new METcase™ catalogue can be ordered online at:
