New 2007 TEKO Enclosures Catalogue

TEKO have published their new 2007 enclosures catalogue which details their comprehensive range of plastic, aluminium and steel electronic enclosures.

This 200 page colour catalogue provides design engineers with a great selection of versatile and cost effective off-the-shelf enclosures. The ordering information, material specifications and customising options are all set out in a clear and easy to use format.

For the 2007 catalogue, TEKO have added four completely new lines: TEKAM extruded aluminium instrument cases, MINITEKAL miniature aluminium enclosures, OVOTEK hand-held ABS enclosures and MINITEKNET pocket size ABS enclosures. The company have also introduced a large number of range extensions.

The existing TEKO enclosures programme includes hundreds of different sizes and styles including keyfob cases, pocket size cases, hand-held enclosures, keypad cases, instrument cases, wall mountable cases, RF boxes and 19" rack cases. All are fully featured in the new catalogue which and can be ordered online at: **www.teko.co.uk/get-catalogue**

Release No: T2007.10 Ends (word count 149)
